Self-Countersinking for Plywood

Flush Head for Ply-Metal

Our New Fastener Will Floor You.

We'd like the floor for a moment to tell you about the new Huck FLOORTIGHT™ Blind Fastener custom designed for transit vehicle floor installations. Like all Huck fastening systems, its strength and durability stand up to even the toughest conditions. But there's more. One-man, one-sided installation saves labor costs. An extra long grip range adds flexibility. And self-countersinking of the fastener head creates a tighter, more vibration-proof joint. All of which means lower installation costs, less rework and less downtime for repairs. So

whether you need the proven line of Huck fasteners, or a customized fastening system, call us today at

(800) 285-HUCK (4825).

And get in on the ground floor.

If you're shopping for windows for your next bus procurement or retrofitting your current fleet, look to EXCEL.

EXCEL WINDOWS are designed and manufactured to meet or exceed all FMVSS safety specifications. We use the latest CAD technology and the most modern equipment to produce windows to the highest quality standards in the industry.

Window Shopping?

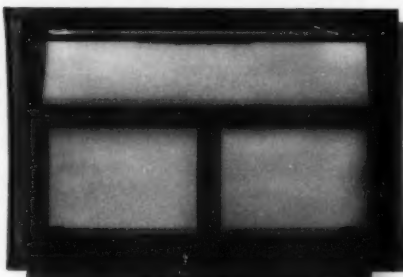

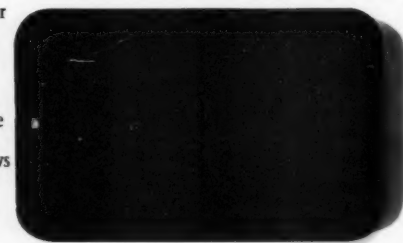

And EXCEL has a complete family of designs, available in either a flat or contoured surface:

- Full-height sliders
- ¾ height sliders with or without an operable transom window
- Upper sliding sash with lower stationary windows
- Full stationary windows

Plus, a full range of glazing materials are available and can be specified in any design:

- Laminated glass
- Tempered glass
- Lucite-SAR
- Lexan MR5-T
- Cellcast acrylic

When you're window shopping look to EXCEL. Contact Michael H. Hurtekant, Sales Manager at (219) 264-2131.
